15th May 2021

Dear Members,

The Registry committee of the Indian Arthroscopy Society in collaboration with Northgate services, UK (Premier international registry developers, maintaining NHS Joint Registry, Eurospine, etc.) has developed the IAS National Ligament Registry.

A comprehensive knee ligament registry has been created as Phase 1. IAS will be launching the pilot version of this registry next week.

It's time to showcase our results in the global arthroscopy arena.

Regards,

Prof. Arumugam S

Chairman

IAS Registry Committee
